

LoTW un point sur le système

Patrick Destrem F6IRF

Au moment où j'écris ces lignes (juin 05), et après environ 20 mois d'existence les statistiques du système sont les suivantes :

Logbook Status

73,032,115 QSO records have been entered into the system.

3,324,596 QSL records have resulted.

9,786 Users are registered in the system

14,731 Certificates are active

124,092 User files have been processed

Quelques faits...

Feb 16, 2005: 5BDXCC is possible now in LoTW! --

FLASH! Station K9NS has achieved LoTW 5BDXCC: 1 May, 2005

FLASH! Station K3LR has achieved LoTW 5BDXCC: 25 April, 2005

Contest station KC1XX has achieved 5BDXCC through contest data submitted to LoTW. With over 255 thousand QSOs in the system, KC1XX recently reached 100 countries confirmed on 80 meters:

Because most participants have linked their DXCC data into LoTW, it is not easy to determine band totals solely on LoTW confirmations. But, big contest stations provide a nice "yardstick" to see LoTW participation because frequently those stations do not have DXCC awards. Other such stations closing-in include K9NS with 4BDXCC and 91 countries on 80 with 220,000 QSOs in the system; K3LR with 4BDXCC and 91 countries on 80 after more than 236 thousand QSOs submitted; and mostly single-op station K5ZD who has 4BDXCC and 90 countries on 80 with 257,000 QSOs!

There may be a few DXers who have combined contest QSOs with regular DXing logs and also achieved 5BDXCC solely through LoTW confirmations, but at present we aren't able to easily determine this event.

KC1XX also seems to be leading on 160 with 70 countries confirmed.

Many other stations have achieved 4BDXCC in LoTW and are closing in on 80 meters -- are there any others with 5BDXCC just through LoTW confirmations?

Et plus modestement, en ce qui me concerne...

Today is Sat, 4 Jun 2005 UTC

You are **F6IRF**

[Log Off](#)

You have **53,754** QSO records

You have **8,151** QSL records

Ce qui représente un taux de retour de 15% (QSO depuis mars 2002 uniquement).

Et au niveau DXCC, un peu moins d'un pays sur 2 est confirmé (je ne suis pas un chasseur de DX's -- juste un « contesteur »), avec un taux de confirmation plus élevé pour les 5 bandes historiques que pour le 6m ou les bandes WARC.
